

MATHS GRADUATE TA/TRAINEE TEACHER

DANIEL

DEGREE	2:1 BSc (Hons) Mathematics – University of Warwick
A-LEVELS	Mathematics A*, Further Mathematics A*, Physics A, AS Geography B
GCSES	13 A* – B including Mathematics A*, Additional Mathematics A, Physics A, Chemistry A, Biology A*
EXPERIENCE	Student support at University & led groups of students on cycling trips
FUTURE GOALS	Aspiring Maths Teacher
DESCRIBED AS	Reliable - Enthusiastic - Perfectionist

BIOGRAPHY

Daniel is a highly motivated individual who is always striving to achieve the best that he possibly can and bring out the best in the people around him, whether through guidance or sharing of experience. While studying his GCSEs and A-levels, Daniel built up a great relationship with his two mathematics teachers who inspired him to take the subject to an even higher level. It was this relationship that has pushed him in the direction of teaching as Daniel believes that he can offer his mathematical expertise to inspire younger individuals in the same way that he once was.

Daniel has previously led small groups of students on cycling trips and has returned to his old school on multiple occasions, while at university, to speak with the current A-level mathematics and further mathematics students to share his university experience and help to guide them in their choice university. Daniel is now planning on gaining as much experience as possible during the academic year, to prepare himself for teacher training and help develop young minds not only as mathematicians but as individuals as well.
